THE BMW M 1000 XR

BORN TO LEAD

This is it: the lightest and most powerful production crossover bike in the world. Nothing less. An M bike through and through. Trimmed down for maximum performance – in this case, long-distance performance. That's why it's called the M XR or, as we like to call it: MaXimizeR. Because this bike maximizes everything: your riding experience, your endurance and, whenever you want, your adrenaline. Alternatively, you can confidently relax while travelling great distances. After all, you know you can leave everyone behind on a whim. #NeverStopChallenging.
